- Naming
Engineer a Mand!

Enabled: Statistics Tracking

A mand is a verbal operant under antecedent control of a motivating operation, and whose reinforcer (when

Subject: here’s my response!

Message: 

Path: p
Comprehension
- Understanding
- Translating
- Summarizing
- Demonstrating
- Discussing

Say it in everyday language (within the parameters I’ve specified)
Application

- Using and applying knowledge
- Using problem solving
- Manipulating
- Designing
- Experimenting

Problem Sets

Procedures

Data collection and presentation

Paper
Video
Audio
F2F
Analysis

- Identifying and analyzing patterns
- Organizing ideas
- Recognizing trends

Data sets
Assessments

Group
Collaborate

Google Drive (and Google Hangouts)

Group Submission capability on Blackboard

Individual
Synthesis

- Using old concepts to create new ideas
- Design and invention
- Composing
- Inferring

Course sequence permits combination of content?

Design and compose intervention based on assessment provided
Evaluation

• Assessing theories
• Comparing ideas
• Evaluating outcomes
  • Solving
  • Judging
Who has the time?

- Screen-cast-o-matic
- Kaltura
- Grading features in Blackboard
- Exceptions in Grading features in Blackboard
- SCORM
Automating Some Content and Processes makes more time for other activities (and greater depth)
